Report of Solicitor

TO THE COUNTY COMMISSIONERS:

In accordance with the custom I herewith submit my report as County Solicitor for the part of the term I have acted as such.

At the May term there were found fourteen indictments, seven of which were for breaking and entering in the night time, three for aggravated assault, one burglary, two for violations of the liquor law and one for setting a trap gun. In every case the ends of justice were fully satisfied. Henry H. Hill, indicted for breaking and entering in the night time was not convicted and while awaiting trial at the November term escaped from the jail, unlocking several locks. Though vigilant search was made he never was captured.

At the November term there were eight indictments found: one for murder, one for adultery, one for arson and four for aggravated assault. The murder case and adultery were disposed of by pleas of guilty and respondents sentenced to life and three years imprisonment respectively. The arson case resulted in an acquittal and the assault cases were placed on file.

Respectfully,
WM. J. BRITTON, Solicitor.

AID TO PERSONS QUARANTINED.

It sometimes becomes necessary to assist a family when quarantined on account of scarlet fever, diphtheria, etc, by

reason of its being deprived of the opportunity to earn wages or from other causes, and to provide for which the following law was enacted by the legislature and approved March 11, 1899.

SECTION 1. Whenever any person or family is placed in quarantine by a board of health, to protect the public against small pox, scarlet fever, diphtheria or any other dangerous, infectious or contagious disease, it shall be the duty of said board to assist such person or family while in quarantine in such a manner as in the judgment of the board may be deemed wise and necessary.

SECT. 2. All expenses thus incurred, or such part thereof as the board may determine, shall be deemed a legitimate expenditure for the protection of the public health and shall be charged to the account of incidental expenses, but not to any indigent pauper account, nor shall such expenditure be construed to mean a public aid to the person or persons quarantined and assisted unless such person or persons are already paupers as defined by the Public Statutes..

The above law would seem to solve, in a thoroughly satisfactory way, a question which heretofore has been considerable of a problem in some localities. The entire matter is left to the judgment of the local board of health, and whatever aid the board may deem to be wise and necessary to extend to the families in question must be paid by the town and charged up as provided for in section 2.
